After School Programs

Student/Parent Homework Responsibilities

This form is designed to delineate our homework responsibility policy in order to answer any continuing questions you may have about the homework room. Please see your Site Supervisor if there is a component of homework responsibilities that remain unclear.

STUDENTS

Students are ultimately responsible for homework completion. To participate responsibly, students attend homework 5 days a week. It is the student's responsibility to take out homework at the start of homework time. (Regulation prohibits a backpack search.) Students need to bring the basic tools needed for homework completion, including paper, pens and pencils. They also should bring their homework packet and a book to read. They can ask for help by raising hand quietly. Although homework room lasts 30 minutes, there is additional help available after snack in the homework room.

PARENTS

Parents are responsible for encouraging their child to use homework room time wisely, and supervise the completion of any unfinished homework at home. If the student has a pattern of difficulty completing homework in a timely fashion, the parent will contact the Site Supervisor to gather information about student's behavior during homework room or see the student's teacher regarding an academic concern.

AFTER SCHOOL PROGRAM STAFF

The After School Program staff is responsible for students having 30 minutes of Lit Art and 30 minutes minimum homework daily. The After School Program staff is responsible for supporting student's homework time. They ensure that student's have 30 minutes to do homework 5 times a week. Guidance is given to students through directions, reminders, question answering when students raise hands, encouragement, verbal praise, and behavior consequences. Each homework room had general supplies, such as glue, pen, pencils, scissors, markers and crayons available for student use. Staff maintains a working silence so that students can concentrate and ask questions quietly. Thirty minutes of reading or Lit Art participation is required daily and monitored so that the staff can sign each students tracking form. If student's homework is not available or if the student completes homework before the end of the period they **must** take out a book to read.
